

Feel at Home Fair

In September 2007, 3P International was represented with a stand at the Feel at home fair in The Hague.

There was a great deal of interest and the Checklists on 'Living and working in the Netherlands' stuffed in a Delft blue sirupwaffle tin were sold out rapidly.

It was our main goal to market 3P International and we think to have succeeded in that.

3P International presented itself as Human Resources organisation for local and international organisations. We were brought in contact with many new organisations and possible clients and we strengthened the ties with our existing relations.

It was until after the fair that we received reactions and were able to plan meetings with potential clients.
